

## A Perfect Crime

Is there a fire? Is there not a fire?

Stampeding through halls, taking no chances

Alarms going off and doorknobs hot

Where to go now, what to do next, help them

Every man for himself, find a way out

One woman wants to save her cat, one man

Climbs in the ceiling to find a safe place

Neither are successful, try a new way

Remember the procedure, find the door

One man tosses a chair at the window,

One man throws a chair at the snack machine

Adrenaline is rushing through the roof

Which is the correct way to the exit?

Only the smartest make it out alive
